

Kevin Flynn

Senior Network Engineer

Summary

Network specialist with deep expertise in SD-WAN, BGP, and hybrid cloud networking.

Technical Skills

Cisco (CCIE), Juniper, BGP, OSPF, Python (Netmiko), AWS Direct Connect.

Professional Experience

Senior Network Engineer | ConnectGlobal (2016-Present)

- Architected a global SD-WAN solution connecting 50 branch offices to AWS regions.
- Troubleshooted complex BGP routing loops during a major ISP outage, restoring service in under 15 minutes.
- Automating network device configuration backups using Ansible and Python.

Network Admin | Regional ISP (2011-2016)

- Managed core routing infrastructure for a user base of 50,000 broadband customers.
- Implemented IPv6 migration strategy.

Education

B.S. Telecommunications, RIT
